

Or-Ion Liquid Vitamins

Or-Ion introduces the first true liquid vitamin! That's right a true liquid vitamin. The first thing we must understand is that anything extracted from a complete and perfect Natural base is no longer the same as it was in the base – no matter what the base may be.

This is something modern “science” refuses to accept, and most “natural” supplement providers fail to recognize.

Bite into fresh fruit and what do you get: Nutrition enriched liquid carrying vitamins, natural sugars (fruit fructose), polysaccharides, structured water, enzymes, amino acids, trace minerals, fatty acids and fiber. However, in order to get all the vitamins you require on a daily basis (RDA) you would have to consume impossible amounts of fresh fruit and/or drink gallons of freshly squeezed juices...not letting them sit for even a few hours less all properties are lost.

No one can make the perfect vitamin supplement, but Or-Ion has come more near fresh fruit than any other supplement provider. Here is how we have done it. After long and arduous research in the area of “natural” supplements we came to one conclusion that has seemed to escape minds much more brilliant than the combined intellects of our entire staff. Nature knows best how to make and deliver nutrients into the human body.

Or-Ion, just like everyone else, extracted vitamins from the best possible fruit and vegetable sources; and just like everyone else the vitamins were no longer what they were when they were in the produce. So, we at Or-Ion found the proper blends of natural sugars (crystalline fructose), amino acids, enzymes, Or-Ion nano minerals and certain polysaccharides, **Fulvic Acid(s)** and added these to our Vitamin base. We left out the fiber so it would fit into a 16 ounce bottle that should last one month for one person if the suggested use is followed. We also left out the fatty acids because they gel!

Perfect!? Not even close. But we feel that these vitamins are far superior to any solid form of vitamin supplement on the market and markedly better than any other liquid.....period! Or-Ion does not put mega doses of our own Or-Ion minerals in the vitamins because we do not find mega doses of minerals in any fruit.
